

CALL FOR PAPERS

2010 International Conference on Logistics Systems and Intelligent Management (ICLSIM 2010)

<http://www.iclsim.org> January 9~10, 2010, Harbin, China

Mail: secretary@iclsim.org Tel: 15114564652

Hosted by Harbin University of Commerce, Springer and STD

2010 International Conference on Logistics Systems and Intelligent Management (ICLSIM 2010) is the leading international gathering of people from academia, professionals and industry in the field of Logistics Systems and Intelligent Management. In this annual conference, researchers and practitioners around the world gather together to interact, to inform and to inspire. ICLSIM 2010 attendees will have many opportunities to discuss their research with these prominent peers. ICLSIM 2010 also provides a quality platform for the broad dissemination of significant research results and innovative practices through conference presentations and published proceedings. We invite authors to submit original papers that contain significant research results, development work, and innovative practices to ICLSIM 2010. ICLSIM 2010 will be held on January 9~10, 2010 in the city of Harbin, China.

The Proceedings of ICLSIM 2010 will be indexed by ISTP and EI Compendex, the best papers presented at the conference will be selected and indexed by SCI.

ICLSIM 2010 covers both theories and applications in all the areas of Logistics Systems and Intelligent Management. **The topics of interest include, but are not limited to:**

Logistics Management & Supply Chain Management: On-demand delivery; Logistics planning; Freight forwarding and customs clearance; Venue logistics management; Warehouse and distribution; Transportation management systems; Reverse logistics; Logistics visibility and control; Procurement; Supply chain collaboration; Supply chain process; Logistics network design.

Logistics engineering: Logistics information technology; Logistics and electric commerce; Model, analysis and optimization with logistic issue; Inventory management system; Logistic planning and decision; Data mining.

Production and Operation Management: High performance manufacturing; Scheduling; Human resource management; Information system and e-operations; International operations management; JIT and lean production; Production planning and control; Knowledge and technology management; Manufacturing technology and strategy; Marketing and operations interface; Mass customization; New product development; Partnering; Project management; Purchasing and sourcing management; Quality management and six Sigma; Revenue management; Service operations management; Complexity system and application; Statistical process control; Sustainable management; Innovation engineering; Cost management; Environmental management; Finance and operations interface; Engineering management; Industrial chain operations; Tour and hotel operations; Emergency management and strategies.

Intelligent Control: Adaptive control; Robust and H-infinity control; Process control; Variable structure control; Optimal control and optimization; Complex systems; Co-operative control; Identification and estimation; Nonlinear systems; Intelligent systems; Discrete event systems; Game theory; Decision-making theory and method; Decision supporting system; Hybrid systems; Distributed parameter systems; Stochastic systems; Distributed control systems; Networked control systems; Sensor network systems; Fault diagnosis and fault-tolerant control; Delay systems; Neural networks; Fuzzy systems; Social economy systems; Motion control; Control applications; Control engineering education.

Paper Submission: All submission must be written in English. Please submit full papers describing original work in detail by 30 September 2009. Upon acceptance, authors will be required to regist and present their papers. Detailed information can be found at the websites <http://www.iclsim.org>.

Important Dates:

Deadline for Full Paper submission extended to:	30 Sep.2009
Notification of Acceptance:	30 Nov.2009
Deadline for Camera Ready Manuscript Submission:	20 Dec.2009
Conference Date:	9~10 Jan.2010
